

Apple Song

I was buying an apple when she looked
my way
She was very forward, asked if she
could stay
I said I would like that if she liked
her fruit
She said that she didn't and she'd
have to shoot

Apples are for me, apples are for you
Her two looked like one and her one looked like two
Apples are for me, apples are for you
If you bought an apple then you could feel them too
(Goo goo goo, ga, joo, joo, joo + laughter)

I was buying an apple when I saw him
gawk
I recognised his face his name is Mr
Spock
Golden Delicious that's the one for
me
Here on planet Vulcan they don't grow
on trees

Omar's maraca solo

I was buying an apple when I saw them
stare
Was it my plims, or my massive flares
Gala, Granny Smiths, Cox's they're
all good
With these tasty apples there's no
other food
